The establish ment of the apartment house plan o living in this as in other cities, has a marked tendency to weaken, if not re-duce the stiffness of landlords in fixing rentals, and landlords who have desir able tenants would do well to try and keep them.

IRRIGATION FUNDS.

Effort of Politicians to Have a Look in on Distribution.

The following recent editorial in the New York Evening Post will be read with interest in this part of the country:

"A feature of the government irrigation projects that is not likely to be discussed at the meeting of the irrigation congress at El Paso, is the attempt of interested politicians to gain control of the distribution of the increasing fund for reclamation work. As the Evening Post's Washington correspondent has pointed out, the Hansbrough bill, providing, among other things, for the placing of all irrigation construction in charge of a "political enginéer," is likely to be pushed vigorously when Congress meets in Decem-The specific complaint of poll ticians like Senator Hansbrough is of course, that the fund is being distributed among the states, not on the basis of population or political impor-tance, but "where it will do the most good" according to scientific and expert advice. Such insolent disregard of the theory of Western statesmanship vote in exchange for an appropriation—must be punished. Mere surveyors and soil experts should not be allowed to spend \$3,000,000 in Nevada, when that state contributed but \$48,000 to the fund, and has just elected a Democratic congressman into the bargain Republican stump speakers in North Dakota, in the Presidential campaign, called attention to the necessity of getting back out of the \$3,406,000 con-tributed to the reclamation fund from the sale of public lands more than the \$1.750,000 judged to be the state's fair share by the engineers in charge. Obviously, if President Roosevelt's a great West developed through irribe jealously guarded from the "political

The above was shown to Attorney Richards and State Engineer Doremus, and both stated that the distribution of the moneys was entirely within the jurisdiction of the secretary of the interlor, and that it was only on his ipse dixit that it could be apportioned out. So no matter how much the politicians may rage and the heelers imagine vain things, the money will go just where Congress intended it should, unless the secretary stands in with the political grafters which is not at all likely.

ITALIAN KILLED.

Ton of Rock Fell on Neza Fontana Yesterday Afternoon.

A ton of rock fell on Neza Fontana yesterday afternoon, and crushed the life out of him. He was an Italian laborer aged 42, working in the limestone quarries near Mill Creek, where fre-quent blastings had loosened large quantities of rock, and the foreman had autioned Fontana about being careul. The warning however, falled of feet, and the first thing the foreman knew, the Italian was lying under a fall of rack following a blast. It required some time to extricate the body which was removed to O'Donnell's un-dertaking establishment. The deceased leaves a wife and four children in Italy. His countrymen will give him

PRINCIPALS' SALARIES.

Resolution Offered at Meeting of the Board of Education.

The long continued attempt of the board of education to agree on a method of raising the salaries of the principals in the city schools, came up for further action at a special meeting of the board of education last night. "That the salaries of high school principals shall be determined on indi-vidual merit, but the minimum/salary paid a high school principal shall not be less than the maximum salary paid a grammar school principal. A high school principal shall, however, be the holder of a state high school diploma,

or its equivalent.

"Each principal of a grade school shall receive a salary of \$80, with \$4.25 additional for each teacher under his direct supervision; that \$5 shall be added to the property of the property of the salary of ed to the monthly salary of any grade principal or teacher in the public school when he becomes the holder of a state high school diploma; provided, how-ever, that no grade principal shall re-ceive more than \$1,500 per annum, un-less he shall have had under his direct supervision a corps of 16 teachers or more for a period of two years."

THE SIMPLE LIFE

By Charles Wagner.

President Roosevelt, introducing the Author to a large audience in the La-fayette Opera House, Washington, had this to say about the book:

This is the first and will be the only time during my presidency that I shall ever introduce a speaker to an audience, and I am more than glad to do it in this instance, because if there is one book which I should like to have read as a tract and also, which is not invariably true of tracts, as an interesting tract, by all our people, it is 'The Simple Life,' written by Mr. Wagner. There are other books which he has written of which we can gain great good, but I know of no other written of recent years, whether here or abroad, which contains so much that we of America ought to take to our hearts as is contained in 'The Simple Popular edition, cloth...... 60
